CAREER OBJECTIVES

Eager software engineering student seeking a dynamic professional journey. I am passionate about applying technical skills and creativity to innovative projects and in search of a challenging, growth-oriented environment to collaborate on meaningful solutions.

EDUCATION

Thakur College of Engineering and Technology
2021-2025

Computer Engineering: CGPA: 8.55 (Semester 5th)

Adarsh Education Society 2020-2021

Computer Science 12th: 88.5%

TECHNICAL SKILLS

Programming Languages: **C, C++**

-Frontend: **HTML, CSS, JavaScript, TailwindCSS, Bootstrap, MaterialUI.**

-Backend: **Node.js, Express.js, PostMan.**

-Database Management: **MySQL, MongoDB.**

-Libraries/Frameworks: **React.js, Redux-Toolkit, ViteFrameWork.**

PROJECTS

URL SHORTNER - Full Stack Project | Self Project

- Engineered a robust URL shortener **application** using the MERN (MongoDB, Express.js, React, Node.js) stack, providing users with a seamless and efficient means to shorten long URLs.
- Implemented a user-friendly interface leveraging React for the frontend, allowing users to easily generate shortened URLs with intuitive form inputs and **real-time feedback**.
- Integrated MongoDB as the database backend to securely store and manage shortened URLs, ensuring data integrity and reliability.

READ IT_ - Book Store | Full Stack Project | Self Project

- Developed an inclusive online platform enabling global book to buy and sell a diverse range of books. -Implemented robust administrative functionalities allowing administrators to efficiently **manage** book inventory by adding, deleting, and updating book data as needed.
- Implemented intuitive interfaces MERN project to ensure a **secure** and **user-friendly** experience throughout browsing and transactions.

TRAVELO - Full Stack Project: HotelWebsite | Self Project

- Website which is used to Book hotel's rooms with **amazing UI**. In this webpage react-redux is used to **navigate** hotels by country and book hotel's rooms in Mybookings.
- Developed a visually stunning hotel booking website using **React-Redux** for efficient hotel search and booking **functionalities**, with a focus on delivering an exceptional user experience. Cards used to show popular hotels in particular country and prices with beautiful Tailwind CSS styling. **Admin** can also add and delete hotels and can also update data of particular hotel.

ACHIEVEMENTS

-Solved up to 200 Problems on GFG(GeeksForGeeks).

-Solved more than 190 Problems on Leetcode

-2 Star Coder at CodeChef.

- SIH (Smart India Hackthon) clear Institue level.

LEADERSHIP

-Volunteering NSS, Social Work.

(NATIONAL SERVICE SCHEME)

WORK/CERTIFICATIONS

-FOSEE C Training

-PMKVY(Pradhan Mantri Kusal Vikaas Yojna) 4.0
MEDIA CONTENT DEVELOPER
